Databases

Postgres, MongoDB, Nuxeo

Methodology

Agile (Scrum)

Design

Figma, Photoshop, Inkscape

Soft Skills

Autonomous
Team-oriented
Pedagogy
Inquisitive
Good listener
Quick to adapt

Languages

Bilingual in French and English
Basic German and Spanish
A little bit of Korean

Interests

Climbing, hiking
Chamber music
Board games
Online learning

Professional Experience

● Full-Stack Web Developer, ISAE-SUPAERO (French Institute of Aeronautics and Space), 2021-2024

Part of the IDEA (Innovative Digital Education for Aerospace) team, responsible for implementing e-learning solutions.

- Developed a microlearning platform with reusable content APIs: Vue.js (frontend), Django and Vert.x (backend).
- Built a Drupal-based content authoring website for course creators, and a Moodle plugin to integrate microlearning units.
- Collaborated closely with instructional designers and teachers.
- Maintained CI/CD processes & infra (Kubernetes), conducted testing and deployments.
- Led Agile events: Sprint Planning, Daily Scrum and Reviews.

● Freelance Web Developer, 2020-2021

Rebuilt SOS Planet, an educational web app that teaches children ecological best practices. Stack: Flask (Python) and Vue.js.

● Moodle Developer, UNESS.fr, 2017-2020

UNESS is the French Online University for Sports and Healthcare, supporting national e-learning for faculties of Medicine, Pharmacy, Dentistry, and Sports Science.

- Developed Moodle plugins to manage faculty/hospital role hierarchies.
- Created a module to track and support medical internships across France.
- Migrated and managed user data for over 30,000 students.

● Freelance Web Designer, 2016-2017

Designed and developed WordPress websites for local clients (artists, small businesses).

- Provided design consulting and front-end development.

● Open edX Developer, LOMDESS, 2014-2016

LOMDESS provides distance learning for healthcare professionals.

- Installed and managed a complete Open edX platform on AWS.
- Developed custom plugins and maintained the LMS backend.
- Ensured platform stability, performed updates, and user support.

Education

● Software Engineering Master's Degree, 2010-2013

ENSIIE - École Nationale Supérieure d'Informatique pour l'Industrie et l'Entreprise
